

Quality specification

Product name: **2-CHLORO-N,N-DIMETHYLACETAMIDE**
Product No.: **3703-KL**
Molecular weight: **121,57**
Formula: **C₄H₈ClNO**
CAS No.: **220 224 4**
ELINCS No.:

CHARACTERISTIC	SPECIFICATION
Appearance	<i>Colourless to slightly yellow, clear liquid. Around 14-16^oC (depending its purity level) it solidifies to colourless crystals..</i>
Purity (GC)	≥ 99,0 %
Water content (by KF):	≤ 0,04%
Boiling point	66 - 69 ^o C/10 mm
IR spectrum	<i>Identical with the standard's one.</i>
Density at 20 ^o C	1,180 – 1,184

Attantion!!!! If it is solid form do not apply heating medium above 50^oC for melting of the material.

Shelf life: 1 year from the date of the CofA.

Veszprém, 24 May 2016
